

I am a thoughtful and self-motivated student, passionate about programming and new technologies. Resourceful team player with experience in common software applications. Meticulous and detail-oriented with excellent observational, organizational and communication skills. Constantly work to go beyond personal bests.

EDUCATION

| Degree       | Institute/Board                                   | CGPA/Percentage | Year      |
|--------------|---------------------------------------------------|-----------------|-----------|
| B.Tech., ECE | VIT University, Vellore                           | 8.11            | 2021-2025 |
| Class 12     | S.M.S Vimal Matriculation Higher Secondary School | 88.05%          | 2020-2021 |
| Class 10     | S.M.S Vimal Matriculation Higher Secondary School | 89.60%          | 2018-2019 |

SKILLS

- **Programming Languages:** Python, Java, MySQL, C programming.
- **Technologies:** Internet of Things (IoT), AWS Cloud, Machine Learning, Zoho Creator.
- **Soft Skills:** Teamwork, Problem-Solving, Communication, Time Management.

EXPERIENCE

- **CubeSimple Pvt. Ltd. India**

ServiceNow (Analyst)

Sep. 2025 - Present

Chennai, India

  - Developed and maintained workflows, business rules, and JavaScript-based scripts on the ServiceNow platform to support and optimize business processes. Analyzed and automated order processing and billing logic, improving operational efficiency, reducing manual effort, and enhancing overall system performance.
- **Flextronics Pvt. Ltd. India**

Project Trainee (Production Unit)

Sep. 2023 - Oct. 2023

Chennai, India

  - Contributed to the core manufacturing process while gaining hands-on experience in team coordination and organizational management. Played a key role in streamlining production operations by assisting in cross-departmental coordination, which led to improved communication and enhanced workflow efficiency. Recognized for effective team management and meaningful contributions to optimizing the production process.

PROJECTS & PUBLICATIONS

- **Epilepsy Seizure Detection System Using EEG and ECG Signals with Machine Learning Algorithms**

Dec. 2024 – April 2025

  - Designed and implemented a machine learning-based system for early detection of epileptic seizures using real-time EEG and ECG signals from the PhysioNet dataset. Built in Python on Google Colab, the model used SVM, Random Forest, and Logistic Regression, achieving up to 96% accuracy.
- **Healthcare Appointment Data Analysis System – Core Python and SQL**

Aug. 2024 – Dec 2025

  - Developed a Healthcare Appointment Data Analysis System using Python and SQL to process and analyze patient appointment data efficiently. Performed data cleaning and transformation using Pandas, and stored structured datasets in PostgreSQL for streamlined querying and analysis. Generated actionable insights on patient visits, appointment trends, and doctor availability through optimized SQL queries, supporting better decision-making and operational efficiency.
- **Smart Bin: A Waste Classification System for Eco-Friendly Urban Environments.**

Jan. 2024 - May 2024

[\[IEEE Xplore\]](#)

  - Developed a real-time waste identification system using OpenCV and ESP32 CAM modules, integrating with APIs and Zoho Creator for smart waste collection routing. Implemented accurate image analysis and data visualization on a web page, and optimized routes for efficiency.

## CERTIFICATIONS

---

- **AWS Certified Cloud Practitioner** Amazon [\[AWS\]](#) *May 2024*
- **ZOHO Young Creator Program Workshop – Low Code No Code App Creator**, ZOHO Corp *May 2023*
- **Internet of Things (IoT)**, VERZEO [\[IoT\]](#) *Oct. 2022*

## LANGUAGES KNOWN

---

- English, Tamil, Telugu, Hindi.
